## **Campus *Recycling***

Sam Brannan is taking a stand against pollution with *RECYCLING!* Many know our environment is in extreme pollution damage. For example, State of Global Air 2019 says, "Air pollution contributes to more deaths than many better-known risk factors such as malnutrition, alcohol use, and physical inactivity." With this being said, Sam Brannan is going to start recycling by:

- Using recycling bins
- Starting a Green Team
- Limiting our plastic usage
- Re-using items if possible

Those are just a few things that we are going to do to contribute to the end of air pollution. Sam Brannan is hoping to inspire schools and people everywhere to recycle and contribute to the greater good of our Earth. Recycling seems small, but it has a very large and positive impact!

# Basketball

Congratulations to all the Sam Brannan basketball teams! We are so proud of you. If you are looking into going to a basketball game, just know that all home games are on Mondays and Wednesdays at 3:30.

# GINGER LIME TAKES OVER!

The Howler just got some new ginger lime sparkling water! Crowd reactions haven't been the best. But I think we can all learn to love the sparkling water. The Howler has about a dozen of these drinks left. So come quick, because most people want to buy one of these amazing, super yummy drinks. They're only \$2.00, such a small price to pay for such greatness. I can't believe that anyone wouldn't like this drink. We only have a limited amount of these awesome drinks. Anyway, come quick and buy fast.

## Upcoming Events

- December 3 - Color Guard (2:30pm - 3:30pm)
- December 3 - Chess Club (2:25pm - 3:15 pm)
- December 4 - Robotics Club (2:30pm - 3:00pm)
